experienceLESER  
Knowledge for more safety

Expand your knowledge in coordinated modules. The technical training offers theory and practice directly with the safety valve in the LESER Chatroom and at the workbench. Trained professionals share their knowledge with you at the LESER Kontor, at your site or virtually around the world.

However, a personal visit is always worthwhile to the LESER Kontor located in the metropolis of Hamburg. Here you will find the product exhibition, the LESER museum 1818 and the LESER Chatroom under one roof.

Scan the QR Code  
and book your training.
